## TORTURE VIA UNCONSTITUTIONAL THROUGH-WALL SURVEILLANCE

Targeted individuals may be subjected to through-wall, through-ceiling and through-floor surveillance enabling precise directed energy weapon torture, e.g.:

## SUPPLEMENTAL EXCERPTS

“In the CIA programs, the target is put through these phases as written in the documentation, ‘**Disorient and confuse the target. Use them for our purposes, and then dispose of them in any way possible**’” (Duncan 2015 with emphasis added; TIs may bear this in mind when fielding receiving signals and messages from agency-affiliated perps).

“The Human Genome Project was carried out at the Lawrence Berkeley National Lab, where I was a staff scientist for five years. They were tracking people in the lab by the electromagnetic frequency emitted by individual DNA. The DNA in every living thing has a unique frequency and signal. That is what they're using, what they're focusing on and what they're weaponizing....” (Tavares 2020).

(As operative Carl Clark reported, sponsors wanted targeted individuals' DNA.)

“I think ... whoever makes the decisions to hurt people with exotic weaponry wanted to know how far the technology could be taken and that's what they're getting. We're all stuck in these programs for decades until, like Dr. Horton said, the leadership of these agencies/ programs is removed, or we kill ourselves like so many TIs have” (Burton 2017).

“They don't stop these things just because everybody finds out that it's horrible and they ought to stop it. They just say they stop it. There's a famous saying in Washington, DC that if an agency gets caught doing something awful they'll change the room numbers ... and if it's really bad they'll change the phone number, but they won't stop doing it” (“The Truth” 2018). **They won't stop until the perpetrators of targeted individual (TI) torture — agencies and contractors — are (legally) obliterated.**
