Thread

Noam Grunes @NoamGrunes

Preferably these replies would be in-line with the question below, "Are human rights abused here?"

Noam Grunes @NoamGrunes · 18h  
 Replying to @YoumonX\_Intl  
 Yep. Directed audio in residences violates 4th Amendment rights to be secure in one's person against unreasonable searches required to localize the target's head (18 USC § 241-242). When I noted this at a hotel, the high-heeled perp above, also shooting me with DEW, began pacing.

Noam Grunes @NoamGrunes · 18h  
 It means, among other things, that causing directed audio as subliminal messaging mistaken for tinnitus, high-pitched assault with intentional sleep deprivation, that engendered suicide, is punishable by death under federal law. Will Filer described NSA's:

 Filer was published in tiny font. For modest emphasis: everyone censoring any such information (in social media or otherwise) may join a conspiracy against rights that results in death, thereby become subject to the death penalty with due process under law including 18 USC § 241.
