

**Excerpts of Robert Duncan's  
*Project Soul Catcher Vol. 2 and How to Tame a Demon***

“In the CIA programs, the target is put through these phases as written in the documentation, ‘Disorient and confuse the target. Use them for our purposes, and then dispose of them in any way possible.’” — Robert Duncan’s 2015 “The Executive Summary: Neuropsychological and Electronic No-Touch Torture Report”

Excerpts from Robert Duncan’s *Project Soul Catcher Vol. 2* (2010)

“Dr. Mengela was referred to as ‘The Angel of Death’ due to the grotesque experiments that he conducted on Jews, especially children, in prison camps, and... in psychological hospitals.... The CIA has a similarly long history of doing the same. They have been caught injecting African Americans with syphilis to watch the progression of the disease, testing radiation on Down Syndrome children to study cancer risks, and brainwashing people with torture... to reduce them to child-like states at McGill University. Now the CIA and DoD are testing maximum pain and torture-to-death weapons on random people” (30) [and not-so-random people for rape, intellectual property theft and/or debilitating whistleblowers].

“No-Touch Torture: ... Microwave and sound weapons are considered no-touch by some people. No-touch torture serves many purposes over traditional physical-only torture. It appears less harsh to observers and in the public eye. This is very untrue

for the person being tortured” (165).

“Techniques for disposal of an individual depend on the necessary timeframe. Car crashes and staged suicides provide immediate disposal for example. The idea is always to create events that will be dismissed as natural, expected, or common by local authorities and the public” (183). “The purpose of S.A.T.A.N. is behavior modification to death” (227).

“Interviewer: ‘Don’t you think that perhaps they [CIA with DoD, NSA and private sponsors and contractors] have over turned every American value and disgraced our country by what they are doing?’ Interviewee [in CIA Humint]: ‘This interview is over’” (228–9).

“Today ‘hell fire’ comes in many forms from microwave energy used for burning type torture, lasers, rug burn (friction), ultrasound, oxidation, rashes from... bacteria, frost bite, chemical burns, radio frequency hyfreaction, radiation, etc. But use of microwave torture can leave no blister marks if done correctly and keep the subject in eternal pain without death. The SATAN and Voodoo doll programs have tortures that have no analogy to physical sensory pain by directly inducing strange new, unpleasant sensations into the target. New kinds of misery and suffering are being developed, often called maximum pain weapons.

“This is used in silent warfare, interrogations, and eugenics programs. Refer to those chapters on directed evolution, eugenics, and mentacide in volume one. It is difficult to call the current use silent ‘warfare’ since there is no way for the target to surrender or even know that they are part of a war. ‘Mass murder’, ‘silent holocaust’, ‘genocide’ are better words to describe it. Several treaties forbid the use of automated weapons systems for this reason. Predator drones and unmanned airplanes have human controllers and are not fully autonomous. This weapon is or can be used without human operators, making it illegal by the Geneva Conventions” (233).

Excerpts from Robert Duncan’s *How to Tame a Demon* (2014)

“SATAN — An above top secret mind control weapon system used worldwide for eugenics of so called dissidents. It stands for ‘silent assassination through adaptive neural networks.’” [“Dissidents” may denote anyone not corrupt, blackmailed or a lemming. Cf. Ronald Bernard’s interview.]

“‘TI’ is an abbreviation for targeted individual: A TI will experience defamation of character in their community, harassment, electronic torture, directed energy attacks, break-ins, organized stalking, gas lighting, or a combination of the previous.”

“Several TIs literally bought tickets on a plane at random leaving their state 30 minutes before departure. They still had the V2K and when they landed they were stalked.”

“If you are a true target, no, moving won’t work. They will buy houses and apartments next to you and even if you go to a hotel they will follow you.”

“In recent years the thrust has been to choose the most difficult program to shape a person. So for example if you are non-violent, they will try to make you into a programmed assassin.... They know that a target with anger issues is too easy to program into a psycho-bomb. They are trying the most difficult personalities to change to the opposite of what they are.”

“One aspect of the mind control break down process is commonly known: create false hope and then crush it over and over again.”

“What is so obvious to the target cannot even be fathomed by those who have not been put through the programs. It is like trying to explain the rainbow to a completely colorblind person.”

“Until you have been tortured, you can’t possibly understand what it is like.... It is impossible to empathize and understand fully what people have gone through and walk a mile in their shoes. The best that a friend or family member can do is sympathize with the target of US mind control experiment subjects and all the torture and psycho-terrorism that it entails.”

“You may be locked up for 72 hours if you tell your story. The police usually give a psychological evaluation for such claims. Don’t fall for it. They don’t have the authority to stop it nor the technical and psychological warfare education to understand it. In this chess game ‘who are the kings and queens?’ you should be asking. No local or state judge can stop this level of covert warfare on the world’s population.” (I’d suggest a modified title: rather than tame, obliterate the treasonous torturers trampling on constitutional rights in gratuitously destroying lives.)

“This is the modern version of McGill University’s research on brainwashing by Dr. Ewan Cameron who used two-track looped recordings on his unwilling subjects and who was funded by the CIA to erase their souls and minds” (238). [This is possible by involuntary psychiatric detainment, a practice that may be punishable by death as unjustifiable deprivation of liberty.]

“The Nazis would kill the mid- to lower-level scientists after a project was complete. Could the US be using the same principle?” (246) [Ask targeted individuals who worked among US military contractors, present-day Nazis overseeing torturing personnel to death.]

“Many of my friends have been tortured, betrayed and killed by the very government for which we worked and the country in whose values we believed” (292).

“The idea is to confuse and disorient the target and make them ‘act irrationally in public’ as the declassified CIA documents state in their released documents through the

freedom of information act” (259).

“Humiliation sexually and intellectually is part of the US CIA’s techniques of breaking down the target” (260). [Scholars may look back and wonder how the CIA existed so long, even with thoroughly blackmailed, corrupt and masonic politicians. They may wonder how satanic masonry, treasonous since Albert Pike, existed so long too. See *Pawns in the Game*.]

Interview: “I refused to work with CIA deceivers and torturers and got punished accordingly. During torturing me, they bragged, ‘I don’t think you realize that you don’t have a choice’” (282). Well, citizenry have a choice on whether to tolerate treasonous terrorist operations.

Whistleblower: “I got to see what they have been working on with enormous ramifications to all social order, a new world order of electronically controlled humans without their knowledge or consent” (285). That’s conspiracy against liberty; they can be legally ended now.

“Officers of the military [all US government employees pursuant to 5 USC § 3331] are sworn to uphold the Constitution of the United States, yet few can recite anything from the Bill of Rights...” (288). Ignorance of violating 4<sup>th</sup> Amendment rights to search residents in their homes for pinpointed torture is not a viable criminal defense, in case they’re wondering.

“A common question for people who undergo this kind of horrific torture is ‘Who is responsible?’ The question is complex.... But a simple answer is that the Department of Defense supplies the budget, the NSA supplies the top scientists, and the CIA/DIA supplies the behavioral scientists and operators with flexible morals” (S288). [With knowledge of these programs, remaining “scientists” in domestic operations of the NSA, CIA and DIA are treasonous terrorists like their operatives, as if lobotomized.]

“Everyone has inalienable rights to life, liberty, and the pursuit of happiness. What good is a country if the people put trust in a government that doesn’t follow the constitution and bill of rights?” (289). With the CIA, NSA and US Air Force, this has been the status quo since 1950s, with aerial poisoning of citizenry and Project Moonstruck: early TIs. “[I]deas are stolen and piped into other individual minds in a technology transfer. The entire idea of patents and intellectual property is nullified by the few that control this neural weapons technology” (292).

“Obviously, the right to privacy and [no] illegal search and seizure has been forsaken in our country’s values. The slow progression towards fascism plagues every civilization and America reached it in record time. Privacy is simply a lie based on these technologies discussed in the book. Mental rape or mental vivisection is as close of a description as can be described by remote viewing and influence” (293). “No-touch torture by non-lethal weapons is far worse than just being nuked or murdered quickly” (293). To end this hell on earth, “Veritas Vos Liberabit’ (the truth shall set you free).”

#### Editor’s Notes

Targeted individuals (TIs) will be supplied details of operations against us: all subliminal scripts (forte of the NSA’s life destruction programming targeting religious conversion and obedience to the NSA playing Jesus (Will Filer’s *NSA Mind Control and Psyops*); when NSA and CIA programs are run on a target simultaneously over years, as with me, at least the NSA has a pretty comprehensive view of what the CIA is doing as subjectively experienced by the target, and the CIA has nearly a reciprocal view via implants; both agencies have redundant means of remote neural monitoring, have been co-complicit in torture and treason), directed energy (AKA high-powered microwave) weaponry, frequency assaults, USAF aerial and other poisoning (customarily with carcinogenic chromium and neurotoxic barium), directed audio, piezoelectric implants whether surgical or inhaled or chemically deposited, hacking, bugging, BCI etc. Agency, DoD, contractors’ and other personnel who endeavor to destroy or otherwise obfuscate these records face capital punishment as in 18 USC § 241, § 242 and § 2381.

Targeted individuals (TIs) in these programs are rarely a “dissident” as the term is generally construed. While some are targeted for rape or sexual assault, intellectual property theft or elimination or discreditation as a whistleblower, many are just empathetic and intelligent people who are not corrupt or subject to blackmail. Why is that? Simply, near the top of politics and finance, honest leadership has been unacceptable:

Noam Grunes @NoamGrunes · 1m

Former banker Ronald Bernard, excerpted from an interview in the shared folder that disappeared online: "The purpose of the whole thing, eventually, in that world, is that they have everybody in their pocket. You need to be susceptible to blackmail." I.e., we're led by criminals.

With the NSA, CIA and DoD life destruction programs having proliferated by 4<sup>th</sup> Amendment violation for incessant sleep deprivation with maximal tenably deniable disruption of targeted individuals’ families and businesses for torture in isolation — the NSA’s violation of citizens historically centered on subliminal messaging with incessant sleep deprivation; the CIA’s violation historically focused on poisoning, frequencies assault and directed energy torture also with incessant sleep deprivation — how is this activity other than common knowledge?

Replying to @NoamGrunes

When SATAN-style programs — crimes against humanity; covert excuses for sexual assault, IP theft and war on unscripted speech — are "above top secret" per Robert Duncan’s *How to Tame a Demon*, what’s "top secret": how to play tic tac toe? How to tie shoelaces beyond bunny ears?

Actually, that one’s top secret for me. But CIA, NSA, DoD, Congressional etc. complicity in conspiracy against rights, deprivation of rights under color of law, and treason including aerial poisoning of the populace (let alone maintaining a neurotoxic sedative in water): hardly.
