

Ladies and Gentlemen: David Cohen, Paul Nakasone[1], Stefanie Tompkins, US Air Force leadership, contractors and sponsors (copied to Attorneys General and a judge or justice, partly considering obligatory reporting of treason),

How does facing capital punishment or torture-until-death, in either case with legal due process, not quite capture your attention? Invited actions follow the preface:

As I continue to be electronically raped, sleep-deprived by physical torture, subliminally messaged and debilitated by frequencies with my head and body pummeled by directed energy weapons; violated by remote neural monitoring with noise campaigns, ear clicks and disorienting extremities electrocution; with poison pressed into an eye, eye chips recurrently activated with pain, my temples and forehead electrocuted; violated by prototypical CIA's "silent assassination through adaptive or amplified neurons" + NSA's constitution-shredding "behavior modification by retarded rapists" with subliminal messaging within every second + contractors' DEW barrage + USAF's and stalkers' lab-tested poisoning + DARPA-associated BCI + foreign covert elements, assaulted through days and nights like myriad other targeted individuals:

You, and your foreign counterparts, must end these neo-Nazi operations now or face capital punishment with or without standardized torture until death, with legal due process. What about that don't you quite grasp? You are not entitled to be, or to enable, treasonous neo-Nazi war criminals. Functional retardation throughout the covert sector is not a viable defense for complicity in capital offenses: no legislation or executive order can excuse 4th or 5th amendment violation with aggravated sexual abuse, attempts to kill and resulting deaths since 1803. You know this. You should know there will be no plausible deniability of criminality amid subliminal interrogation with neural monitoring. An era of criminals' plausible deniability is ending regardless of witnesses left standing.[2] You can help your organizations digest this.

Your silence or denial of responsibility for criminality addressed here is more than misprision of felonies and of treason, just as attempted concealment or obfuscation of these indefensible operations is more than 18 USC § 1519. It is complicity in capital offenses (18 USC § 241–242). Know that anyone who endeavors to conceal any facet of neo-Nazi targeting programs faces capital punishment with or without standardized torture until death, with legal due process. In case it was missing from "4th Reich" orientation: you are not entitled to enable violating anyone in any way, including in our residences around-the-clock.

Your organizations are jointly and severally responsible for targeted individual torture operations and treason. Your (5 USC § 3331) oath of office may require studying every word in the following invited actions, no matter to whom addressed, for two reasons:

First, it would behoove you to understand how you facilitate constitution violations, war crimes, murder or treason in a non-compartmentalized way. Air Force personnel should understand how chromium spray facilitates "slow kill" as the EPA-designated carcinogen is found in our urine while our bladders are pummeled by directed energy weapons (after operatives tortured my dad up to his death with metastatic bladder cancer). You should understand how your lab-tested barium spray ("ten thousand times more toxic to your nervous system than lead") causes heart attacks, can be piezoelectric material for remote neural assault, and may ease propagation of directed energy torture. NSA and CIA perpetrators know that targeted individual torture programs are intended to cause life destruction, yet should understand cumulative effects of multiple "slow kill" operations, and treasonous intents for mass enslavement in the most deleterious societal architecture illuminatus could conceive (socialism for 99%, defenestration of constitutional rights in one world tyranny without checks and balances on stupidity let alone malfeasance, and a caste system

enforced by an antitrust-violating monopoly of central bank digital currency alongside debilitating BCI: at first approximation, the dumbest economic, political and social structures wrapped in one treasonous package).

Second, your operations overlap. Air Force personnel, for example, are complicit in implanting women electronically raped just as NSA and CIA personnel are. When you see any below-itemized Invited actions addressed to another that you can legally achieve, please get it done without ado. Know that anyone you ask for permission may be blackmailed or compromised even more than you are, so, with any iota of honor left: just get it done. You will be judged on your actions and inactions, morally and legally, albeit not reasonably on your contemplations or solitary words in what the US Supreme Court has held is the privacy of your home, at least insofar as they do not reveal actualized criminal behavior.

As you preside over capital offenses in each of your organizations, by allegations that may be deemed credible and soon beyond plausibly deniable: please appreciate the gravity of your decisions to honor or not honor my below-itemized invited actions, meticulously and comprehensively, now.

Cordially,
Noam Grunes

[1] NSA recipients: please hand printed copies of this full email to Paul Nakasone as before, and to leadership of your Research Directorate including LAC and LPS (NSA Lab for Advanced Cybersecurity and Lab for Physical Science).

[2] In the event I am swapped out for a clone, chiphead, parasite, hologram, robotoid or avatar no longer advocating for preservation of inalienable individual constitutional rights, or for the permanent incapacitation of all personnel and all entities systemically complicit in any lifelong targeted individual torture operation: it is not me.

[3] Do USAF and NASA lobotomize personnel slightly less than CIA, DHS, DIA, DOJ, DOS, FBI, NIH, NRO and ONI, to comfortably pronounce 4-letter acronyms? DARPA personnel must consider themselves geniuses, throwing around 5 letters. In an appropriately 3-letter word for mass comprehension yet in all seriousness, please take care of this NOW.

[Contractor],

This will likely be the most consequential decision of your career. We're unacquainted. [Contractor] has participated in targeted individual torture operations against me and others similarly situated. I have been electronically raped over a thousand times, with lab-tested poison (including carcinogenic chromium and neurotoxic barium) aeriaily sprayed and pressed into my eyes by directed energy; shot with directed energy weapons (DEW) around the clock and sleep-deprived by physical torture always in recent history; electrocuted in my temples, forehead, fingers, toes, nose, ears, genitals etc. in response to my activity with a malicious brain-computer interface; routinely poisoned with biological and chemical agents; debilitated by frequencies; bombarded with subliminal messaging around the clock; and impaired in business and logistics with calls, texts and online conversations delayed, deleted or spoofed. I have been subjected to prototypical targeted individual torture operations with [Contractor] on the front lines. There will be no plausible deniability of the agencies' and contractors' complicity in these.

You can respond in one of two ways. First, you can get ahead of it by honoring my instructions meticulously, by doing the right thing. There will be [large] settlements or judgments in due course, and you can handle whatever is required honorably. Alternatively, you can respond any other way, from denials that won't hold up to ignoring it to angling for my assassination. While I always act legally in all material respects, the latter choice would likely result in your capital punishment with due process, with or without (not cruel and unusual, rather) standardized reciprocal torture until death under evolving law. I'm endeavoring to be reasonably straightforward.

While it appears approximately everyone in the covert sector has lost their minds, in the event you choose the first option:

- Talk with all your black ops teams and obtain full details of operations against me and other tortured targeted individuals (TIs).
- Supply me full, unredacted details of all the operations against me and my family, friends and associates: obfuscate nothing.
- Please understand that any TI torture obfuscation may entail 18 USC § 241–242 violation, a capital offense for these operations.
- Instruct all of your employees, contractors and subcontractors to preserve all records of, and cease immediately, all operations against tortured targeted individuals including me, along with all of (said targeted individuals') family, friends and associates.
- Make it clear that anyone persisting in any facet of a TI torture operation faces capital punishment with due process, starting with 18 USC § 241 as the operations require 4th Amendment violation and entail aggravated sexual abuse and attempt to kill, even by asinine suicide or altercation scripts. Help your team understand that no executive order or legislation, whether state or federal, negates capital offenses from constitutional violations since Marbury v Madison (1803).
- Ensure your employees, contractors, subcontractors and partners cease targeted individual torture operations today. That includes disabling:

- non-consensual brain-computer interfaces;
- flyovers poisoning any targeted individual's location;
- all directed energy, frequency, subliminal, noise campaign, chemical and biological assaults;
- all access to any non-consensual implant, brain signature, DNA, RNA and (or) biometric data of any tortured TI; and
- all through-wall, through-floor, through-ceiling, telephonic, internet and (or) other surveillance of any tortured TI (targeted individual). My internet traffic, for example, has (appeared) routed from Cambridge, MA to Littleton, CO.

You can see evidence of the directed energy weapons (DEW) assault at <https://infinityb.co/TI>.

Please courteously acknowledge receipt of this email right away, and end these operations with the above actions today.

Cordially,
Noam Grunes

Subject: Please act constructively now
To: Including David Cohen

David [and others addressed],

You are tolerating TIs, including me, being raped, poisoned and tortured around the clock in our homes, barely functioning amid incessant assault, after David was briefly CIA director when your associates tortured my dad up to his death. Can you begin to fathom the consequences for your souls tolerating this?

Please act now, ending Nazi targeting operations by condemning TI torture and taking below actions immediately.

Responsibility. Your... is tolerating electronically, physiologically raping individuals targeted like me (10 USC § 920) in residences turned into neo-Nazi concentration camps with gassing lab-tested to include neurotoxic barium, and carcinogenic chromium coursing through urine while my genitals, bladder, intestines and body are pummeled with directed energy weapons as shown on video, crushing mitochondrial function and organs in "slow kill" "special access" "TI" (targeted individual) torture programs known as the "Silent Holocaust" proliferative with dastardly nanotech and BCI. Its perpetrators are agency-associated rapists, sadists, thieves and parasites who reportedly seek tyranny devoid of liberty, "a new world order of electronically controlled humans without their knowledge or consent" (*Soul Catcher Vol. 2*). I am debilitated with sleep deprivation by physical torture, directed energy to my face and each of my eyes and about all body parts, electrocutions penetrating my head, exhausting

frequencies, nefarious subliminal messaging, noise campaigns and lab-tested poisons. There will be no plausible deniability of complicity in these crimes amid mass subliminal interrogation.

Capital Offenses. The targeted individual torture operations include treasonous components — including spraying the populace with toxic barium and filaments for unilateral assault — and are, in each discrete case, capital offenses under 18 USC § 241 with or without § 242, entailing incessant 4th Amendment rights violation plus aggravated sexual abuse (in my case on every shift, beside electrocutions generally within every minute, frequency and subliminal assaults generally within every second), attempt to kill (whether by fast or "slow kill") even by asinine suicide or altercation scripts beside lab-tested poisoning, or any resulting death. You know that no executive order or legislation can excuse these constitutional violations since 1803 (Marbury v Madison). Everyone tolerating the TI torture operations faces extermination with due process.

Actions. I've emailed thrice now, while I continue to be heinously tortured around the clock.... you can support remedying this or face soul damnation. David can take the following actions or face capital punishment with due process: For modest emphasis I act legally and advocate cleaning up this neo-Nazi mess only legally.

Consolidated from prior communication for convenience:

A. Actions for other TIs (targeted individuals):

1. Immediately end operations against [name redacted] in Cumberland MD.
2. Immediately end operations against [name redacted] in Nea Makri, Greece.
3. Immediately end operations against [name redacted] of MI, heinous hate crimes.
4. Cause immediate arrest of the US Air Force veteran who instigated torture of [name redacted], his subliminal interrogation for operational details and his public prosecution detailing some of the nature of these operations.
5. In collaboration with the NSA: promptly nullify all post-hypnotic and other subliminal suggestions to all tortured targeted individuals and to each of our family members, friends and associates.
6. With the understanding that subliminal interrogation is more effective than torture in eliciting information, immediately end — and ensure your NSA, FBI, DHS, DOD contractors' and DOD counterparts (in every branch, notably including the US Air Force, Space Force, Army Intelligence, Office of Naval Intelligence, DTRA, DARPA and its BCI grantees and licensees) immediately end — all targeted individual operations without a warrant for every operational facet, which involve any realized or attempted:

- torture, isolation or sleep deprivation,
- communication inhibition,
- covert implant (whether surgical, injected, inhaled, chemically deposited as by spray or otherwise imparted, including any self-assembling filament),
- covert transceiver in any person or property,
- directed energy or frequency,
- dissociative identity or trauma-based programming for any purpose,
- gang or aerial stalking or street theater,
- intellectual property theft (5th Amendment beside 4th Amendment violation),
- libel or slander,
- noise campaign,
- non-consensual brain-computer interface, body-machine interface or wireless body area network,
- other-than-nationwide subliminal messaging,
- pavlovian conditioning (like the all-red nonsense, as if everyone designing these operations has been a 3-year-old),
- poisoning including by spray (whether chemical, biological or cross-domain),
- religious conversion or relationship with any imagined deity or angel or supernatural entity played by AI or an operative (NSA's forte as God or Jesus impersonator in dreams, voices or signs: pretty sick as they oversee torture),
- remote neural monitoring by any means,
- sexual abuse, voyeurism or sadism (how is this consistently part of CIA, NSA and DOD TI operations: what the heck is wrong with your personnel),
- through-wall, through-floor or through-ceiling surveillance,
- travel inhibition by any means, vehicular tracking,
- or other constitutional (generally 4th, 5th, 8th or 14th Amendment) violation.

7. Publicly itemize all personnel and entities involved in any facet of said operations.
8. Supply full unredacted details of each of said operations to the TI affected thereby.
9. Institute and publicly detail institutional safeguards against any of said operations resuming in any form.
10. Cause prompt, legal and permanent, detainment or execution of all persons known or found to be complicit in any targeted individual torture operation, including from or contracted by the CIA, NSA, DOD (notably including via DARPA, DTRA, Army Intelligence, Office of Naval Intelligence, Air Force or Space Force), FBI, DHS, [contractors' names redacted] or any other entity.
11. For said perpetrators and anyone who endeavors to thwart any above action, cause prosecution for capital punishment or legal torture-until-death not unusual, rather standardized in the manner perpetrated against TIs in our homes as with isolation, omnipresent sleep deprivation by pain from a DEW, around-the-clock directed energy assault, electronic rape multiple times per shift, infuriating and tormenting frequencies, subliminal messaging as imparted incessantly etc.; the customary biological and chemical poisoning can be omitted as outlawed.
12. Promptly file a statement in the Targeted Justice case (TXSD 6:23-cv-00003) advocating for elimination of the non-investigative subjects (NIS) list easing covert slander, rape and torture ("97% of people on the TSDB that travel without additional... interrogation, because they are non-investigative subjects that do not represent a terrorist threat"), and, in slight redress of due process violation, disclosure of each NIS' nominating information to the NIS, enabling each NIS to sue the nominators in the event it was fabricated libel or slander.
13. Communicate to all NSA personnel running any operation on Ana Toledo, Karen Melton Stewart or any other targeted individual (generally a la the *NSA Mind Control and Psyops* script): you will be held accountable for it.
14. You know that every core component of targeted individual (TI) torture is operational widely and patented generally, unconstitutional in our homes and not "fantastical." Yet US attorneys have sought case dismissals (often against pro se litigants whose lives have been destroyed, while they continue to be tortured) with such libel. Remedy all the TI torture lawsuits dismissed, acknowledging each TI's experience reflects covert torture. As life destruction operations simultaneously steal and reduce QALY, arrange reparations for each tortured TI not less than some multiple of the highest QALY value used for drug reimbursement, multiplied by the number of years they were tortured in a US (including CIA, NSA or DOD) "special access", "behavior modification" or other neo-Nazi program. (This is dramatically less than jury judgments for torture. The CIA can afford it.)

B. Actions to clean up operations against me, which include prototypical, incessant NSA bull manure described in Will Filer's *NSA Mind Control and Psyops*; Silent Assassination Through Amplified Neurons ("SATAN") programming associated with the CIA; aerial poisoning associated with the CIA and US Air Force; assault with directed energy weapons as pursued by [contractors' names redacted]; assault with exhausting frequencies in the daytime and alert frequencies at night since last century; aggravated sexual abuse by frequency or directed energy on about every shift; noise campaigns on top of this as the agencies strive for maximal aggravation in operations designed by functionally retarded sadists; and a malicious brain-computer interface:

15. Immediately end all programs against me and other individuals targeted like me.
16. Talk with [name redacted]: recommend he thoroughly honor all instructions in my May 12, 2023 email to him, copied to you, immediately.
17. Promptly supply me all subliminal messages imparted to (a) me or (b) anyone regarding me, specifying each recipient of each subliminal message, obtaining these from the NSA, DOD, contractors and foreign counterparts insofar as CIA doesn't have them all. These ramped up in 2003–2009, in Australia.
18. Share with me all files of operations against me throughout my life — from CIA, NSA, DOD, [name redacted], BCI, foreign counterparts etc.— unredacted, partly to make it clear I have a partner. Include every file that mentions "Grunes" or any numerical or coded designation of me (that may include dimwits' "fluffy bottoms" etc.). You can note fabricated cover files. I haven't filed any FOIA request. In the unexpected even you need one for this, just guide an attorney to promptly file it.
19. Supply me all other details of covert operations against me or any of my family members, friends and associates that you ascertain.
20. Disable all through-wall, through-floor, through-ceiling, remote neural monitoring, brain-computer interface, internet activity, screen, telephonic, email and all other non-consensual surveillance of me immediately and permanently.
21. Make it clear to NSA, DOD, all at CIA, foreign counterparts, [redacted] and other applicable contractors that anyone who plants or maintains access to any implant, transceiver or nanotechnology in — or poisons or sabotages — any of my current or prospective items, residences or self faces capital punishment or reciprocal torture-until-death with due process, without plausible deniability in subliminal interrogation. Instruct them to stand down in the TI operations immediately.
22. Apparently Texans' "Happy Ending LLC", initiated in 2016, bought the condo where I was tortured in 2016–2019 (1900 Purdy Ave, also known as Sunset Harbour Dr, Apt TS3, Miami Beach, FL 33139) at the end of March 2021 when I was unconstitutionally detained (in a room labeled 1 MN to 33; yes, I'm from MN and familiar with 33rd degree disclosures). My family's torture in Massachusetts appeared to be partly from Texans affiliated with Texas A&M at 1 Webster St, Arlington, MA 02474. Apparently it was sold April 8, 2021, the same day an LLC was created that bought 81–91 Winter St, Cambridge, MA 02141 with line of sight to my next long-term residence, soon a dish pointed at me. Detail backgrounds of all you can implicate in my torture including Texans, Chinese, CIA and NSA and DOD personnel, contractors and subcontractors, police department members, Russian affiliates, 5 eyes counterparts, sponsors and all involved with my BCI.
23. While operations against me attracted a boatload of domestic and foreign participants, do not endeavor to conceal or obfuscate CIA or NSA involvement. I was interrogated based on email I had yet to download. Meanwhile the operating tactics reflect NSA and CIA programs to a T: life destruction, religious conversion, "behavior modification" from... NSA and the CIA's "SATAN" program, in this case with heavy involvement of the DOD, contractors and subcontractors. The TI torture programs will be laid bare. So too will be attempts to conceal or obfuscate these as a conspiracy against rights, a capital offense.
24. Cause legal, reciprocal, standardized torture-until-death or capital punishment for all complicit in the operations, including all complicit in poisoning, bugging or breaking into my self or my any (past, current or anticipated) residence.

C. Preliminary actions to clean up further treason:

25. Advocate prompt eradication of all routers and frequency generators at or near 60 GHz, near peak oxygen absorption, and felonies for running them knowingly.
26. Advocate prompt outlaw of fluoride, a Nazi and Soviet weapon for cognitive impairment. Any non-sociopath in this country can benefit from more situational awareness unimpaired by intentionally incessant poisoning.
27. Cause those complicit in dissemination of parasitical nanotechnology or filaments, sprayed by the treasonous US Air Force and CIA elements alongside neurotoxic barium and carcinogenic chromium, to be publicly detained or (legally) exterminated.
28. Call out US Air Force and CIA spray of biological and chemical poisons as treasonous, including widespread spray of barium facilitating electromagnetic assault ("ten thousand times more toxic to your nervous system than lead" said a doctor for pilots spraying it from Peterson Air Force Base). Call for immediate and permanent cessation of biological and chemical spray operations along with a full and transparent accounting of what has aeriaily bombarded the country.
29. Promptly publicly disclose all equipment and all methods known to safely disable wireless body area networks and other implants enabling remote torture (whether surgical, injected, inhaled or otherwise imparted). As these are deployed illegally, there is no legitimate offsetting consideration for non-disclosure of the remedies. Ensure the methods don't cause growth of self-assembling filaments reported in blood samples.
30. Cause CIA operatives, contractors or partners involved in the treasonous threats to or murder of Mike Chapala, who provided one solution for that in a pulsing drum he refined over (approximately) 9 years, to be promptly arrested or executed under law.
31. Institute a policy for all federal employees, contractors and sub-contractors to be confirmed as not, by scans as practicable and subliminal interrogation on all disqualifiers: a chiphead, clone, host of vrill, historically blackmailed, ever a rapist or otherwise subject to blackmail, advocate of UN (including WHO) supremecy defenestrating inalienable constitutional rights, or tolerant of any caste-like system violating the 14th Amendment with no longer equal access to healthcare, banking or unrestricted travel as contemplated with central bank digital currencies.

Somehow billionaire illuminuts, Jesuits and masons coalesced around the (approxiiimately) dumbest possible social, political and economic structure regardless of population: enforced by CBDC, castes defenestrating meritocracy, a political tyranny defenestrating checks and balances on any idiot; and socialism or communism for the masses to own nothing. In broad strokes it is impossible to have a (substantially) dumber vision for aggregate utility or harmony. Naturally the tyrannical (not a very nice word) paid to silence dissent including targeted individuals. It jibed with using TIs as guinea pigs, to see how AI might help billionaires subdue and control enslaved masses. The sadistic rape and electrocutions in TI torture operations are classically CIA; the subliminal messaging is clasically NSA; the poisoning reflects US Air Force pursuits similarly since Nazis brought it mycoplasma to spray; the nano-tech has been an evolving monstrosity over decades; and other components of TI torture and life destruction reflect Stasi Zersetzung in an unbroken Nazi lineage.

As targeted individuals like me are daily raped by frequency or directed energy, assaulted with directed energy weapons around the clock, debilitated by frequencies and sleep deprivation, abused by incessant subliminal messaging and noise campaigns, stalked and poisoned wherever we go: tolerating these operations would entrench you as a Nazi family. This is a time of judgment.

I encourage you to get on the right side of it now, in David's case by racing to complete the above action items, ending and disclosing TI torture operations now.

Cordially,
Noam Grunes

Subject: End criminal operations now

To: Frank.Kendall@us.af.mil <Frank.Kendall@us.af.mil>, kristyn.jones@us.af.mil <kristyn.jones@us.af.mil>, charles.brown@us.af.mil <charles.brown@us.af.mil>, david.allvin@us.af.mil <david.allvin@us.af.mil>, joanne.bass@us.af.mil <joanne.bass@us.af.mil>

Dear US Air Force Leadership:

FRANK KENDALL,
SECRETARY OF THE AIR FORCE

KRISTYN E. JONES,
UNDERSECRETARY OF THE AIR FORCE

GENERAL CHARLES Q. BROWN, JR.,
CHIEF OF STAFF OF THE AIR FORCE

GENERAL DAVID W. ALLVIN,
VICE CHIEF OF STAFF OF THE AIR FORCE

JOANNE S. BASS,
CHIEF MASTER SERGEANT OF THE AIR FORCE

Copied: David Cohen, an attorney general and a judge or justice

Ladies and Gentlemen of the Air Force,

Your prompt attention is required because you oversee among treason, criminal use of weapons of mass destruction and targeted individual torture operations. Honorable persons among you will end operations against the US and tortured targeted individuals, including me, immediately.

Assaulted around the clock with among directed energy weapons (DEW) as demonstrated beyond reasonable doubt, frequencies, subliminal messaging, noise campaigns, neural monitoring, malicious BCI,

communications impairment, sleep deprivation by physical torture, sexual abuse and other SOP in Will Filer's *NSA Mind Control and Psyops*, CIA's "Silent Assassination Through Amplified Neurons" program and DARPA-associated BCI — targets like me are also poisoned by the Air Force with lab-tested barium, chromium and filaments that stick to elevated windows.[1] Chromium is an EPA-designated carcinogen. Barium is "ten thousand times more toxic to your nervous system than lead" per a doctor for pilots he confirmed to be spraying it from Peterson AFB. Self-assembling filaments have appeared in blood observed by Dr. Ana Mihalcea inter alia, structurally like old nanotechnological spray associated with the CIA. Your toxic spray has been disclosed by whistleblowers including from Air Force logistics. Three cover stories for toxic spray — "global warming" mitigation, merely weather manipulation or geoengineering, and defense against exotic (frequency) warfare as by metallic aerial grids — are untenable when you spray biological parasites, a carcinogen and a neurotoxin.

Sprayed barium is piezoelectric material that facilitates targeted individual (TI) torture, including when sprayed and chemically deposited into our faces by directed energy (hitting a facial nerve such as the "V2" maxillary nerve with a "k" coupling coefficient, the "V2k" incorrectly but colloquially known as voice-to-skull). Aerial barium facilitates electromagnetic assault allegedly by easing DEW propagation too. It depletes potassium, causing heart attacks.[2] It is toxic. You have been following targeted individuals (TI) with toxic spray throughout the US.[3] Everywhere we go, you poison, while poisoning the populace broadly. This is treason and/or use of weapons of mass destruction in statutory language (18 USC § 2381, § 2332a).[4] Assaulting targeted individuals in our residences includes 4th Amendment violation as a capital offense (18 USC § 241, § 242), inexcusable under any executive order or legislation since 1803 (*Marbury v Madison*). [5] You are complicit in assaulting targeted individuals with aerial poisons, directed energy, frequencies, subliminal messaging, noise campaigns and neural entrainment from among aircraft, satellites, drones and terrestrial installations.[6]

Any honorable person among you will end such operations immediately.[7] They may have included the names Indigo and Cloverleaf.[8] I have been aurally assaulted in Miami-Ft. Lauderdale beside greater Boston (primarily Arlington to Cambridge). Others are being assaulted throughout the country. End these operations now. Identify the offshore and onshore AFB launching the assaults, identify the treasonous programs, and shut them down now. Print and safeguard their operational details in dozens of considered-secure locations above and below ground, including all their personnel, who have acquitted themselves in the manner of Nazi war criminals. Ensure none of your pilots, aircraft, drones, satellites or other assets assault any targeted individual (TI) again without rock-solid constitutional authorization for a time-delimited mission.

To hell with information compartmentalization in the service of torture or treason: understand exactly what you are spraying — test it randomly and frequently, including for toxic barium, toxic chromium, self-assembling filaments that may grow in the presence of an electrical or magnetic field, and nanotechnology at maximum magnification — and research your targets with due diligence. Beside the poisonous spray, immediately terminate all satellites, drones and terrestrial installations that have hit any targeted individual with any directed energy weapon, frequency or noise for other than legal: time-delimited interrogation without torture, physical capture or prompt execution.

Please also furnish me all details you can find or obtain of operations against any of my family, including me, with the infrequent surname Grunes or our any identifier. You will know I am a US citizen (from Minnesota) targeted in multiple operations, who advocates only legal actions, without any criminal history notwithstanding any cover story for malfeasance. Please also furnish me details of the (criminal) spray and directed energy

assault on Wempe Drive in Cumberland, MD 21502, and monitor it like a hawk. You might liaise with NGA for these purposes with TSCM checks for tampering with records, while NSA, CIA, NORAD, USNORTHCOM, Office of Naval Intelligence, Army Intelligence, elements of the Space Force, and obviously your Air Force appear substantially criminal. Still, you can ask the NSA to subliminally interrogate all your past and present personnel for scienter in targeted individual torture or treason, starting with pilots identified by pay.[9]

In summary please immediately:

1. End all spray including barium, a neurotoxin.
2. End all spray including chromium, an EPA-designated carcinogen.
3. End all spray including any nanotechnology or self-assembling filament (as implicated in "died suddenly").
4. End all spray including any "dust" for any (unconstitutional) neural interface (BCI), including in any special access program.
5. End all spray that follows any targeted individual (as for DEW propagation, weaponized frequency, neural interface or toxic assault).
6. Terminate all assets — including all drones, satellites and terrestrial installations — that targeted or target any individual with any directed energy weapon (DEW), frequency or noise for other than legal: time-delimited interrogation without torture, physical capture or prompt execution (hereinafter "I/C/E").
7. Furnish me details of, and monitor long-term, the aerial spray, DEW and frequency assaults on Wempe Drive in Cumberland, MD 21502.
8. In collaboration with the US Space Force, Office of Naval Intelligence, Army Intelligence, covert agencies and applicable contractors:
 - 8a. Permanently disable all through-ceiling (beside through-wall and through-floor) surveillance without a warrant for it specifically.
 - 8b. Permanently disable all weapons using any DNA, RNA, brainprint or other individual data for other than legal I/C/E.
 - 8c. Permanently disable all non-consensual: brain-computer interfaces and body-area networks not used solely pursuant to a legal warrant for I/C/E. Non-consensual means without express informed consent not withdrawn. You may know, or learn, that subliminal interrogation is more potent, beside more reliable, than torture in eliciting or extracting information from persons of interest.
 - 8d. Permanently disable any other category of unconstitutional activity facilitating targeted individual rape, theft or torture operations.
9. See whether you can eliminate piezoelectric material from all possible chaff, helping to disable targeted individual torture operations.
10. Obtain codenames and alphanumeric identifiers of all individuals with my surname (Grunes) from at least CIA, DARPA, DHS, DIA, DTRA, FBI, NSA, ONI, Space Force and your own Air Force. Use these to identify all Air Force (and, insofar as you can, all the Space Force, NSA, CIA and other) operations against any of said individuals. In requesting the identifiers, include a notice that anyone choosing to be complicit in targeted individual torture, including anyone who endeavors to conceal or obfuscate it, faces capital punishment with due process and without plausible deniability of the complicity under subliminal interrogation.
11. Furnish me all, unredacted details of said operations against any member of my extended family, including against me (Noam Grunes).
12. Harness potent subliminal interrogation for internal investigations; there will be no plausible deniability of malfeasance and nonfeasance.

Act now.

Cordially,
Noam Grunes

[8] Among publicly disclosed allegations: "I would not intentionally spray my children or family with toxic aerosols, but as you must know, perhaps 80% of the pilots do not have any family or children. Indigo pilots are chosen from top ranks within the Air Force, Navy, and Coast Guard. Most of the pilots are 'hardened to humanity' and couldn't care less killing off unwanted or leaching aspects of America and the world. I swear to you, the majority of the pilots are like machines... nearly 1/3 of all flights are being orchestrated from small unnamed islands, where newly constructed bases are being built at a rate of 8 per year. On these extremely remote islands there are HAARP(-like) arrays... with many arrays surrounding these islands within the depths of the ocean.... and here is the kicker. We are shown videos in our training of catastrophic destruction to our homeland by very sophisticated weapons, then told that these will be the consequences if we don't fly." Of course the spray *is* catastrophic destruction by lab-tested parasites/nanotechnology, carcinogen and neurotoxin: the US Air Force is waging war on Americans. (You might even view the back of your hands and arms under a microscope and see sprayed fiber embedded in your skin, toxic in itself while likely easing surveillance, torture and murder.)

"[One] operation is known to pilots and aviation crew alike as 'Indigo Skyfold'. Pilots are told to fly specific routes, while satellites control aerosol dispersal patterns. The pilots make course corrections from time to time, and perform landings and takeoffs. Pilot navigation and maintenance crews are rotated constantly, and only spend about 18 months at one given base, to keep pilots and their families from making too many friends, and ending up with 'loose lips'. They also rotate between day and night flights, one base for daytime flights, and one for night. Each base covers a 250-mile zone, and each fleet (squadron) of planes covers three states,

or an even larger swath of ocean. They're told to simply do their job and 'Shut the F*ck Up!' Their superiors tell them it's a matter of National Security": "Without these flights our enemy's newest technological weapons of war could easily penetrate America's airspace, at will. We are dedicated and committed to keeping our allies safe from the same skyward threats, so we extend the arm of protection to those countries that support our efforts. Hostile nations are also building atmospheric shields, while at the same time trying to explore weaknesses in our ever-developing air and space based technologies." Again this does not hold up when spray includes biological parasites, a carcinogen and neurotoxin.

"They are ordering us to fly at lower and lower altitudes. We feel like a massive 'Dark Force Empire' of crop dusters", but USAF targets people beside crops with toxic spray. One in USAF "says he senses a wavering within the ranks, and that a kind of mutiny is beginning to boil to the surface of this whole geoengineering global whitewashing."

[9] "We are paid more than any other pilot for our service, other than Air Force One pilots": if true, that is how you may quickly identify past and present pilots in a spray program, then subliminally interrogate them with neural monitoring to identify their associates and superiors, subjecting them all to subliminal interrogation for scienter in targeted individual torture or treason. Subject investigators to subliminal interrogation too; this country has a lingering Germanic Nazi problem beside tyrannical illuminuts, genocidal billionaires and treasonous chipheads, with foxes guarding the henhouse so to speak. Ultimately past and present DOD, NSA, CIA, US contractors' and other personnel may be subjected to potent subliminal interrogation without plausible deniability of malfeasance and nonfeasance.

Regardless of the timetable to prosecute individuals, end aerial poisoning of targeted individuals and the populace; and end directed energy, frequency, subliminal and other audible assaults on targeted individuals — including by aircraft and drones in both senses of the word — immediately.

The 1–12 actions under "In summary" above, please now honor.

Subject: Re: End the targeted individual torture operations now

To: customercare@nsa.gov <customercare@nsa.gov>, NIASC@nsa.gov <NIASC@nsa.gov>

Nazi Subliminal Assailants,

Honor... instructions below....

While you oversee flagrantly unconstitutional "special access" "behavior modification" programs tantamount to neo-Nazi war crimes, raping me electronically on every shift; assaulting me incessantly in the face and cycling among other body parts with directed energy weapons, shots demonstrated on video beyond reasonable doubt;

violating me with debilitating low Hz frequencies in days and high Hz at night in life destruction operations since last century; poisoning my environment with lab-tested carcinogenic chromium and neurotoxic barium continually pressed into one of my eyes like dialing up a cell phone, overseeing aurally poisoning the populace for unilateral electromagnetic assault; sleep depriving me by physical torture daily and nightly; running isolation tactics per Biderman's chart of coercion including disabling my landline, destroying my cell phones, preventing calls ringing, disabling texts propagating, delaying conversations, assaulting my throat and poisoning relations with subliminal messaging; maintaining noise campaigns as disrespectful parasites; turning my screen blurry after getting ahold of my equipment deceptively; inhibiting work with among blinking screen entrainment, nauseating or exhausting frequencies, rape and physical assaults after torturing my dad up to his death: the soul of every adult working for the NSA, I damn (in the status quo). For supporting life destruction operations described in Will Filer's *NSA Mind Control and Psyops*, Dr. John Hall's *A New Breed: Satellite Terrorism in America* and Robert Duncan's *Soul Catcher Vol. 2* alongside lab-tested poisoning of the populace, with a substantially unfettered view of perpetrators' communications: you are treasonous neo-Nazi rapists and murderers whether directly or in support of your colleagues, among the most dishonorable animals who could exist.

Any honorable person among you, having sworn to support and defend the Constitution of the United States not excluding 4th or 5th Amendment rights, would have ended operations against me immediately and laid their details bare. But you don't have any honorable person with material situational awareness. What you have are functionally retarded rapist enablers and brain violators committing capital offenses until legally incapacitated. You should know there will be no plausible deniability of malfeasance or nonfeasance amid subliminal interrogation.

May 14th instructions to Paul Nakasone below, I guess he received, yet the email appeared undelivered. I requested his email address, and that of his any executive assistant or chief of staff, multiple times in your website forms, receiving no reply, I suppose to be expected as you oversee criminal operations violating me around the clock. I then called the NSA for his email address and was told to visit NSA.com, NSA.com. Have you all been lobotomized or only most of you?

Seriously: have you forgotten who you work for? While you may all be treasonous neo-Nazi parasites, you could at least pretend to do your jobs. You work for the people of the United States: you work for me, and every one of you who touches the rapists' and "slow kill" operations against me in any way, an amalgamation of Filer's *Mind Control and Psyops* with military contractors' DEW, USAF's poisons, NSA-CIA-DOD BCI and CIA's "Silent Assassination Through Adaptive or Amplified Neurons" ("SATAN", because your agencies are stocked with dum*****), I will see tortured to death or executed with due process. You can read a legal basis....

1. Please print the below email, hand it to your director Paul Nakasone, and reply that's done.
2. Second, please reply with email addresses to reliably reach him promptly with beyond a few sentences your online forms maximally enable....

Cordially,
Noam

Paul Nakasone,

We're unacquainted, though I wonder whether you took a course from my dad at Saint John's.

1. Status quo judgment. While in all material respects I act legally always as you know, in the status quo I morally damn your soul and consciousness to experience substantially only agony, anguish and torment reciprocally, eternally.

2. Responsibility. With CIA, DOD, FBI, DHS, DOJ, DOS, ODNI, Congress, White House and contractors, you are responsible for overseeing targeted individual torture operations (that may include "behavior modification" and "special access programs") that have included electronically raping me over a thousand times; generally electrocutions within every minute, including assaults evidenced by burn marks and shown on published videos; sleep deprivation by physical torture every night in recent history; sleep deprivation throughout my life; dastardly dreams manipulation; low Hz debilitating my function in daytimes since last century; deleterious frequencies entrainment; religious programming detailed in Filer's *NSA Mind Control and Psyops*; isolation tactics described by Filer and per Biderman's chart of coercion, including disabling or delaying calls, texts and online communication alongside directed energy, frequency, noise campaign, poisoning and subliminal torture; incessant subliminal messaging inside my left ear rendered louder by an ear plug; aerial poisoning with lab-tested biological and chemical agents that ramped up around 2014, including recently lab-tested carcinogenic chromium and neurotoxic barium; excruciating head electrocutions that ramped up in 2016 after directed energy torture since my childhood; sabotage of my equipment including mobile phones destroyed by hacking, screens rendered blurry and blinking screen entrainment; transceivers planted in my belongings and RF-emitting or -receiving instruments of torture in my body. My privately written or spoken words have been repeated or echoed by political, financial and technology sector leaders. I was interrogated based on email I had yet to download, implicating NSA beside prototypical *NSA Mind Control and Psyops* activity. Operatives said their goals included to get me into a tent (homeless). These are intellectual property theft, sadistic rape and life destruction operations. With unfettered access to communications, the NSA should have a comprehensive view of TI torture operations perpetrators beside itself.

3. Instructions. In the event you seek any redemption, immediately:

- (1) Supply me every subliminal message the NSA has imparted to (a) me or (b) anyone regarding me, specifying each recipient of each subliminal message;
- (2) Supply me all other details of operations against me and against any of my family members, friends and associates, without any redaction or obfuscation;
- (3) Nullify all post-hypnotic and other subliminal suggestions to all tortured targeted individuals, and to each of our family members, friends and associates;
- (4) With understanding that subliminal messaging suffices for robust interrogation, end — and ensure your CIA, FBI, DHS and DOD counterparts (in every branch, including and not limited to USAF, Space Force, Army Intelligence, Office of Naval Intelligence, DTRA, DARPA and its grantees and licensees) end — all targeted individual operations without a warrant for every operational facet, that involve any realized or attempted:

- torture;
- isolation,
- sleep deprivation,
- communication inhibition,
- covert implant (whether surgical, injected, inhaled, chemically deposited as by spray or otherwise imparted, including any self-assembling filament),
- covert transceiver in any person or property,
- directed energy or frequency,
- dissociative identity or trauma-based programming for any purpose,
- gang or aerial stalking or street theater,
- intellectual property theft (5th Amendment beside 4th Amendment violation),
- libel or slander,
- noise campaign,
- non-consensual brain-computer interface or body-machine interface,
- other-than-nationwide subliminal messaging,
- pavlovian conditioning (like the all-red nonsense, as if everyone designing these operations is a 3-year-old),
- poisoning including by spray (whether chemical, biological or cross-domain),
- religious conversion or relationship with any imagined deity or angel or supernatural entity played by AI or an operative (NSA's forte as God or Jesus impersonator in dreams, voices or signs: pretty sick as you oversee torture),
- remote neural monitoring by any means,
- sexual abuse, voyeurism or sadism (how is this consistently part of NSA, CIA and DOD targeted individual operations: what the hell is wrong with your personnel),
- through-wall, through-floor or through-ceiling surveillance,
- travel inhibition by any means,
- vehicular tracking,
- or other constitutional (generally 4th, 5th, 8th or 14th Amendment) violation;

(5) Publicly itemize all personnel and entities involved in any facet of said operations;

(6) Supply full, unredacted details of each of said operations to the TI affected thereby;

(7) Institute and publicly detail institutional safeguards against any of said operations resuming in any form;

(8) Publicly advocate for prompt eradication of all routers and frequency generators at or near 60 GHz, near peak oxygen absorption, and felonies for running them (with scienter);

(9) Ensure prosecution for legal, standardized torture-until-death or capital punishment for anyone who endeavors to thwart or obfuscate any above action;

(10) File a statement in the Targeted Justice case (TXSD 6:23-cv-00003) advocating for elimination of the non-investigative subjects (NIS) list easing covert libel, slander, rape and torture ("97% of people on the TSDB that travel without additional... interrogation, because they are non-investigative subjects that do not represent a terrorist threat"), and, in slight redress of due process violation, disclosure of each NIS' nominating information to the NIS, enabling each NIS to sue the nominators in the event it was fabricated libel or slander;

(11) And arrange for your successors to be currently tortured targeted individuals (such as Bill Binney) confirmed, by scans as practicable and subliminal interrogation on all disqualifiers, to be not: a chiphead, clone, host of vrill, historically blackmailed, ever a rapist or otherwise subject to blackmail, advocate of UN (including WHO) supremecy defenestrating inalienable constitutional rights, or tolerant of

any (astoundingly stupid, unsustainable and unconscionable) caste-like system violating the 14th Amendment (as contemplated with CBDC).

In the event you fail to do so, my aforementioned judgment is permanent.

Beyond moral judgment, please understand — and help every employee, contractor or partner working for or with NSA, CIA, DOD, FBI, DHS, DOS, DOJ or any domestic police department understand — that anyone persisting in, or endeavoring to coverup or obfuscate, any facet of any US TI torture operation faces (multiple counts of) capital punishment with due process, starting under 18 USC § 241 as the operations require 4th Amendment violation and entail among (a) aggravated sexual abuse; (b) attempt to kill, even by (asinine) suicide or altercation scripts; and (c) resulting death by "slow kill" including, and not limited to, by the physiological degradation of sleep deprivation. Help them all understand that no executive order or legislation negates capital offenses from constitutional violation since *Marbury v Madison* in 1803 (18 USC § 242).

Understand too that anyone connected with any (non-consensual) search or seizure of my self or my any property (or libeling or slandering me in connection with any torture operation) will (or may) face capital punishment with due process under 18 USC § 241–242. You should know that every torture element I mention is operational widely and patented generally.

For those involved in perpetrating the "behavior modification" and "special access" targeted individual torture programs, turning our homes into "slow kill" concentration camps with gassing and burning beside physiologically damaging incessant subliminal messaging, debilitating frequencies, noise campaigns, aggravated sexual abuse, sleep deprivation and a malicious BCI, I suppose the most viable defense pleading would be functional retardation coupled with delusions of omnipotence, angling for defendants' placement in an asylum for insanity, such as any covert agency. You can end these seriously indefensible operations now. Please do.

Postscript:

Soon before emailing this, I was electronically raped multiple times, assaulted in my heart, electrocuted inside my dick, had directed energy into each of my eyes separately, electrocuted in my right thumb when I commented on the foregoing, pummeled as by a directed energy weapon (DEW) to the outside of my genitals and torso, microwaved or imparted sensation of such in my legs, electrocuted among my fingers with now more searing of my right thumb, caused disorienting pain in or near each of my temples (now by my left temple) etc. These are not post-hypnotic suggestions. Imagine experiencing such electrocution assaults throughout days and nights as merely one facet of torture in your home and workplace with incessant sleep deprivation, poisoning, debilitating frequencies and physiologically deleterious subliminal messaging non-stop, as by treasonous retarded terrorists. I'm receiving more pulses to my rectum now: not too much information.[1] You, and your CIA, DOD, FBI and DHS counterparts, cannot fathom the karmic repercussions of failing to honor the above itemized instructions immediately.

[1] The aggravated sexual abuse on every shift reflects allegedly standard operating procedure of attempted "sexual humiliation" in agency-affiliated programs. It's never humiliating. It's always infuriating, and will result in the legal extermination or legal torture-to-death of all parties responsible for it. Cover

stories for such NSA, CIA and DOD sadism include causing unending anger and redirecting it onto a chosen target. With these targeted individual torture operations having proliferated, legal reciprocity will be foremost against elements of NSA, CIA, DOD, FBI, DHS, USG contractors and private sponsors, starting with everyone tolerating these operations in the NSA, CIA or DOD.

You should understand there will be no plausible deniability of that with mass subliminal interrogation. Your decisions will be laid bare.

For modest reiteration, I advocate cleaning up this mess entirely legally. It should be generally understood that goals behind massive targeted individual torture operations, beside poisoning the populace, included bringing down the US government to install a one-world tyranny ostensibly led by the UN with operational headquarters in Colorado, and "what they have been working on with enormous ramifications to all social order, a new world order of electronically controlled humans without their knowledge or consent" ((whistleblower allegation in) Robert Duncan's *Project Soul Catcher Vol. 2*). Of course both goals are failures, as people are not quite comprehensively robotic sheep. Seriously, does everyone in the agencies understand that NWO pushers, the wannabe enslavers seeking a world in which "you will own nothing," are functionally retarded? (It's breathtaking: their having amassed such wealth and ensuring their demise in pursuing a dystopian caste system. Masonic and illuminut propaganda of the blackmailed buffoons being superior animals "physically, mentally and spiritually" must have gone to their lemming-like heads (William Guy Carr's *Pawns in the Game* — spiritually superior in worshipping a goathead? Maybe it was selected for the mockery of worshipping an animal like sheep (while saying Baa...!)), even synonymous with sheep in Chinese yang).

For about any pursuit (including self-preservation) beside sadism or treason, let alone honoring your 5 USC § 3331 oath of office, you have one logical choice in this matter. That is to honor my instructions (now).

Cordially,
Noam Grunes

5. June 5, 2023 below: itemized Invited actions for Stefanie Tompkins, DARPA:

January 5, 2022 to selected recipient Stefanie Tompkins online ("Thank you for contacting the Defense Advanced Research Projects Agency") without reply:

Hi Dr. Tompkins,

Please reply with attestations from all DARPA personnel and contractors since 1977:

"1. I *do* or *do not* [underline one] know of any human experimentation or project or contract, with which I or any of my employers have been connected, without all participants' fully informed consent, and omnipresent right to withdraw consent, including without limitation any non-consensual brain-computer interfacing, neural monitoring or directed energy use.

2. The name "Grunes" *does* or *does not* [underline one] appear in any of my or my employer's work since 1977, including without limitation in connection with any brain-computer interface (or BCI), remote neural monitoring (or RNM), directed energy weapon (or DEW), implant, surveillance or frequency torture. If I underlined "do" or "does" above, details of my knowledge thereof **are attached**, including all entities and persons I know to have had any knowledge of such activity.

I understand that obfuscation in my response may result in violating 18 USC § 241-242. I verify under penalty of perjury that the foregoing, and each attached statement, is true and correct. Executed on (insert date). (Insert signature)" (28 USC § 1746)."

Additionally as heinous neo-Nazi war crimes are underway, Dr. Tompkins:

1. Immediately terminate all brain-computer, brain-machine, brain-brain, body area network and other remotely accessible implants or nanotechnology within your attainable purview, for which any subject who may experience any of that has not for it provided express, particularized, written informed consent that has not been withdrawn.
2. Promptly notify all non-consensual test subjects, within your purview, of all programs and products each experienced, along with best methods for disabling and removing all of their any implants and nanotechnology.
3. Instruct every entity that ever received any payment or technology transfer from DARPA to promptly complete a form no less comprehensive than that appended below, cumbersome but usefully so.

Cordially,
Noam

Form for all DARPA collaborators past or present:

1. List every product your self or company, including its any predecessor — or any of your directors, officers or scientists — directly or indirectly developed or worked on in each of the following categories:
 - 1A. Brain-computer, brain-machine or brain-brain interface, or other remote neural monitoring.
 - 1B. Body area network or remotely accessible implant in a brain or body or embedded in skin.
 - 1C. Filament or hydrogel that may grow in the presence of a magnetic or electrical field.
2. For each product identified in Item 1, list every subcontractor and other entity that participated in any of its research or development.
3. For each product identified in Item 1, list:
 - 3A. Every prior, and no longer, human and other animal test subject.
 - 3B. Every current human and other animal test subject.
4. For every human identified in Item 3 (3A or 3B), list:

4A. All who supplied express, particularized, written informed consent to being a test subject for said product.
4B. All others.

5. Attach the following statement to the above items, one for each person who served as your any director, officer, managing or general partner, sole proprietor or otherwise chief executive, at any time since January 1, 2013: "I declare under penalty of perjury, under the laws of the United States of America, that the foregoing is true and correct. Executed on (date): (signature)."

6. Instruct every entity listed in Item 2 to complete all items in this form (1-through-6), including attestations under penalty of perjury, and return it to you. Attach all pages of those submissions to your own submission.

Submit this information within 45 days, in electronic and printed form, to DARPA and each member of the Senate and House Intelligence Committees separately. Subject to legal guidance, failure to do so may disqualify your organization and leadership from any future federal contract, among other consequences. You may submit an invoice to DARPA for the actual, reasonable, printing and delivery costs of these submissions.

This email message, including its attachments (if any), contains Privileged and Confidential information and is intended only for the use of the named individual(s) to whom it is addressed. 6. June 5, 2023 below: itemized Invited actions for NSA's Research Directorate:

Please attend to the first 5 urgent matters detailed below:

1. Localized EMP for deadly filaments
2. Scans for neural authenticity
3. Subliminal priority 1: dystopia
4. Subliminal priority 2: fake greens
5. Subliminal priority 3: world war etc.
6. When you can....

1. Soon before he died, Mike Chapala told me that allegedly CIA operatives threatened his life for treating or curing civilians sprayed with technology appearing as filaments. He found his most effective solution was a pulsating drum he worked on for approximately 9 years, which received a rave review. Please find his available specification of it in "introduction to aerial assault of targeted individuals" forthcoming at <https://infinityb.co/TI>, otherwise at minute 17 of <https://infinityb.info/drum-at-min-17> (while the drum is no longer there available).

Self-assembling filaments allegedly implicated in "they died suddenly" allegedly are like decades-old CIA-affiliated spray, grow with electrical current, and crush cognitive and bodily function. Even if humanity would reasonably end now, prompt finality would be nicer than this insidiousness.

How about creating several iterations of Mike's drum; confirming it disables — safely, internally — all nanotechnology NSA has seen whether embedded in skin, injected, inhaled or ingested; optimizing its production; and supplying one to every physical voting site for mass accessibility.

2. You may have a sense of multiple efforts to bring down the United States only partly by poisoning everyone. These may be somewhat attributed to old masonic illuminut plans for 3 world wars before 1 worldwide tyranny, eased by a false flag alien invasion, economic collapse and monopolistic control of forthcoming digital currency. But it's also allegedly attributable to inauthentic "leaders" donning masks or run by neural parasites or neural chips or controlled as clones. Presumably you could scan for each of these at access points, e.g., for congressional votes, administration leadership etc. Do you? If not, how many safe scan methods can you devise for this to run alongside subliminal and remote neural checks on authenticity? Ignoring it would be like enabling anyone you consider adversarial to covertly replace any key person at any time.

3. Please remind all working for the NSA, and your partners, that in an era of proliferated subliminal interrogation and remote neural monitoring, plausible deniability of criminality disappears regardless of any witness left standing. We're in or entering that era. While this may leave covert agency personnel with nothing to do in the primary covert business lines allegedly (child and sex trafficking, illicit drug running, false flag operations for wars of aggression, theft, targeted individual torture etc.), please invite your "Nazi Subliminal Assailants" to change gears and run subliminal routines to identify the following persons with priority:

- All who transferred funds to any anticipated future currency in a caste-based system, a conspiracy against 14th Amendment rights. They may contemplate absolute dependence of 99% of humanity, suddenly impoverished, on one world tyranny. In one expected financial reset or psyop (via <https://oculumlabs.com>):

"CSRQ-SM (Social Management) Software is the program that will be used worldwide by select governmental and banking institutions when the financial reset occurs.

"The financial reset will be a complete restructuring of the current system, eliminating all existing fiat currencies overnight. The CSRQ-SM software will intercept all banking transactions, all credit and debit card transactions, and all known financial transactions over a period of 3 to 5 days once the system is activated.

"The currency planned to be used is known as USDR.... No bank account shall contain more than \$1000 in USDR at any time for Class C accounts. Class C accounts will receive \$1000 USDR once at the beginning of each month.

"Separate accounts, known as Class S accounts, are reserved for government leaders and the highest echelons of the rich and elites of the world. Class S accounts can contain unlimited USDR funds and have additional privileges."

"There are four classes, Common, Restricted and Quarantined – and Sovereign.

"The first three comprise 99% of humanity. They will all have strict limits on assets you may own and require mandatory vaccination. They will all have a social and carbon credit score and all will receive heavy penalties and fines for behaviour that is not approved. The system is similar to China's social credit scoring system, but more robust and stringent.

"The Sovereign class comprises less than 1% of humanity. It is a hidden class, and highly classified. It will never be disclosed to the public. Sovereigns do not have any restrictions of any kind and they are not required to receive vaccinations of any kind. They do not have social or carbon scores they must adhere to."

Reportedly "sovereigns" who transferred fiat money into USDR received along the lines of a 43:1 USDR-to-fiat exchange rate versus 1:1 later for 99% of people.

Beyond debilitating entrepreneurship and meritocracy, pursuit along these lines is a conspiracy against 14th Amendment rights in the United States, punishable under 18 USC § 241 inter alia. In the event it would go live, a massively deleterious social system (castes impairing meritocracy) would be conjoined with an unstable political system (one worldwide tyranny) and inefficient economic system (central planning of socially desirable activities for those who "own nothing"). It's as if practical jokers in another species made a bet on whether any human would go along with it.

How about subliminally interrogating the full populace (as you substantially did for simple right nose, left nose tells), above ground and in the DUMBs (some say denoting Deep Underground Military Bases rather than the occupants) for complicity in any such conspiracy to trample on the 14th Amendment, on equality under law, and promptly prosecuting the miscreants. There should be a question mark there, yet it's basically rhetorical. Have you started this?

(The FedNow payment system, allegedly required for CSRQ-SM, is publicly planned to start in July 2023. (A July 3–4 start date would be 3 years, 333 days after it was proposed August 5, 2019.) It's headed by "Kenneth Montgomery": 222 in english ordinal gematria = "order out of chaos" in reverse ordinal. An August 1–3, 2023 start of CSRQ-SM, or anything, could be 102 years, 2 months and 2 days after the May 31 – June 1, 1921 Tulsa racial massacre, "the single worst incident of racial violence in American history" (a phrase that is (in)famous 322 in reverse reduction). Presumably "chaos" attending such a system would exceed that in Tulsa by orders of magnitude.)

4. Please invite your Nazi Subliminal Assailants to then hone in on the treasonous fake environmentalists:

Depopulation intents have appeared persistent: "to kill 90% of humanity and enslave the survivors. I did not read about this on some sort of internet 'conspiracy site,' I was invited to join them in this plot by representatives of David Rockefeller. I have the tapes to prove it (October 2, 2020). One "offered me the job of Finance Minister of Japan as long as I went along with a plan to kill 90% of humanity. He said it was necessary in order to 'save the environment.' Since war did not kill enough people the plan was to use disease and starvation to kill every one off, he said" (August 2, 2021: benjaminfulford.net, where you can focus on just firsthand reports).

It is ridiculous, using CO2 to constrict food and justify depopulation in private. While CO2 levels appeared to rise steadily from the 1950s in Hawaii, in the 1970s experts suggested an ice age was imminent. Covert atmospheric heating, including with HAARP-like malevolence, appears more likely to have materially modified climate than an incremental 0.0001 atmospheric CO2 over a half century.

Yet the cover story persists as purveyors of a CO2 sequestration pipeline (unreal: is a flatulence pipeline next?) allegedly attempt to seize farmers' lands as in South Dakota. Amid some 36 billion acres, not even aerial abodes yet, and human population that was leveling off in the absence of covert manipulation, depopulation attempts may be approximately 100% driven by non-humans or for illusory control. Why not subliminally message everyone to see who's complicit in advancing a false CO2-driven warming story for food constriction or depopulation with scienter? (Naturally you would avoid the word "scienter" in subliminal scripts, best written with functionally retarded royals-and-billionaires in mind. After all, they allegedly think a few hundred people can enslave millions.)

5. Once your Neandarthal Subliminal Assailants (complicit in violating targeted individuals around-the-clock) solve

any caste-based financial reset and fake environmentalists wreaking havoc, you might invite them to hone in on remaining masonuts endeavoring to orchestrate conclusion of Albert Pike's plan for World War 3, alongside a false alien invasion and financial collapse. At least preempting collapse appears doable on paper, with antitrust law applied to both currencies and payment systems to minimize machinations for economic depression: <https://infinityb.co/collapse/>

6. After you take care of the above items: fate of the "free" world may hinge on whether a few people can sleep and work undisturbed by treasonous parasites (including parasitical rapists from your agency before they are systematically legally exterminated). Toward that end, please see whether you can build a motorhome with attributes:

1. drive functionality without any computer, so it can't be hacked;
2. prompt alert of any unauthorized transceiver in interior or exterior;
3. visibility for driver on all sides and corners, above and below;
4. shields ~all magnetic and electrical fields;
5. shields ~all radar and infrared surveillance;
6. soundproof as with vacuum enclosure;
7. invisibility cloaking easy to turn on/off;
8. unauthorized access ~impossible;
9. speedy, secure internet connection inside;
10. full inside bathroom with 6+ foot inside bath,
11. connected with external water and sewer lines;
12. air and water intake ~impossible to tamper with;
13. ~best air filtration including aerial nanotechnology destroyed and trace metals captured;
14. zero VOC inside, with all surfaces easy to clean;
15. outfitted with legal-for-civilians weapons system;
16. all functionality immune to damage by an EMP;
17. ~undamaged by rounds from a machine gun;
18. ~undamaged by most vehicle collisions;
19. can withstand conventional missiles;
20. can withstand kamikaze drones;
21. bonus if it flies too. (Why not? You can think: bees.)

You may gather I seek a place to sleep. On account of its overseeing torture with life debilitation and incredible damage, the NSA owes me more than it can ever pay. This is a serious request/invitation for a useful vehicle after you take care of potentially urgent items preceding it above.

Cordially,
Noam

PS — For emphasis to every addressee of this email: I am being electronically raped on every shift, sleep deprived by physical torture, viewing a blurry screen amid frequency assault, with prototypical NSA subliminal messaging loud as hell inside my ear, directed energy into my maxillary nerve, left ear clicking with electrocution upon a typo, nauseating frequencies, ongoing noise campaign in response to my activity, physical violation of my body whether in a restroom or work or bed, incessant impairment of my any function as if your entities are populated by substantially only sadists and sheep. When I find that any of you are tolerating even one operative accessing my brain or body, any hacker accessing my any equipment, or less than prompt disclosure of every facet of these heinous operations as I invited, you would face legal torture-until-death or execution, always with legal due process insofar as I pursue it. I hold you personally accountable for the fate of every targeted individual in the event you act with less than near-maximal diligence and urgency to tackle these indefensible operations now.
