Beside this 3-minute video, please see video in comments below. The neo-Nazi torture programs should end soon. For your sake I think there's less risk in detailing them now.

Carl Clark worked for covert agencies and disclosed torture of civilians with microwave weapons. The following video quotes Clark and CBS 60 Minutes, then shows burn marks on torture targets and proof of DEW (directed energy weapon) shots at me.

It's proof.

These are 24/7 assaults alongside poisoning (lab-tested to include carcinogenic chromium and toxic barium), debilitating frequencies and extraordinary cognitive interference by subliminal messaging: holistic life destruction operations.

CIA operatives have disclosed the goal is to render targeted individuals homeless or in psychiatric institutions by slander.

The torture includes simulated rape or sexual abuse by DEW/frequency multiple times daily. (Think searing pain inside genitals.) While assaulting many, the perpetrators have largely targeted individuals of African descent or, by heritage, Jews.

(You could read about this in Mukazo Vunda's Coherent Madness; Renee Pittman's Pain Ray Beam; John Hall's A New Breed etc.)

Leading covert agencies and military contractors have sponsored neo-Nazis to rape, poison, shoot and violate targeted individuals in our homes. In my case they ran interrogations even for investment ideas: these are not merely public programs.

The FBI, DHS and police have collaborated with neo-Nazis, never acting against them across thousands of these domestic torture operations. (As an FBI agent told a target being sexually assaulted, "we know whose [non-consensual, 4th Amendment-violating biometric] chips are on." Like others, they implanted my hand, beside my eye and by my ears/nose/throat.) As always, I pledge my actions to remain meticulously legal amid a sea of terrorists.

This is no joke, has been called a "Silent Holocaust" as we're literally gassed and burned, in several cases to death. It's also known as "slow-kill" or "the program" while sponsors pay to rape us, voyeuristically watch our torture and/or steal intellectual property.

In the aerial gassing daily and nightly, a doctor for pilots spraying barium from Peterson Air Force Base measured it (as others and I have), then called it "ten thousand times more toxic to your nervous system than lead." Meanwhile sprayed chromium, an EPA-designated carcinogen, was found in my urine while neo-Nazis shot my bladder and genitals with directed energy weapons (DEW).

You may have been fed propaganda to disregard proof of torture or malfeasance, and can overcome that. Without hyperbole: this is tantamount to a contemporary Nazi Germany. It's debilitating torture around the clock.

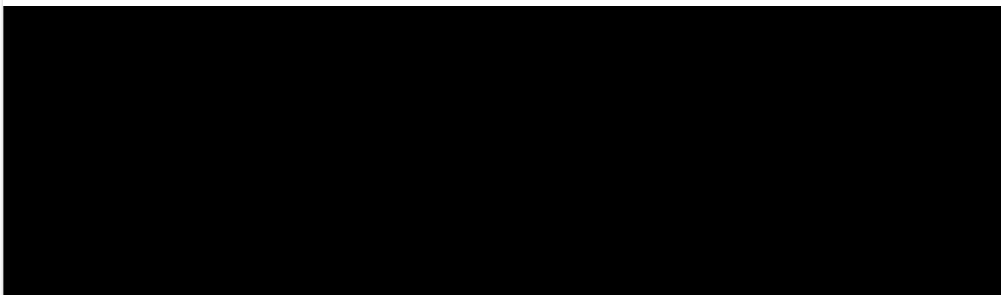

Covert agencies have preferred to dispose of tortured targeted individuals by psychiatric slander (as detailed down this page), fake suicide, fake accident, induced heart attack or brain aneurysm etc.

All who think there's any iota of psychosis involved in this after watching and listening to the following 3 minutes carefully – a few times if necessary to digest it, elsewhere called video "1b" – would be thinking with idiocy. I use that strong language because such idiocy is destructive, like covertly sponsored slander.

Until these torture programs end, I think it's best for you to not comment publicly here. I've abstained from reaching out to some of you and even commenting on your posts or milestone events, to minimize this spreading historically. Silently I congratulate you on activities and may be more vocal over time.

It's past my time to move. If anyone has basement space for rent within a long drive of MA, please let me know!

In due course I hope to share news more pleasant (the Hebrew meaning of my name after all). For now:

Translation by Cyborg Nicholson on Peacepilot

The following excerpts are from Carl Clark's April 2010 interview in Raus + Zeit disclosing non-wave (sic) agencies functioning as terrorist organizations:

"The story told by Carl Clark will partially take your breath away. The Englishman describes how he became a target himself... He also took part in the deployment of microwave weapons in one were later turned on him... These critical shortcomings need to be exposed in public so they why he blew the whistle."

"Carl Clark: I worked freelance from 1980 to 2003 for various secret services. I worked for the American CIA (1987-1997), I then worked for the Israeli Secret Services, Mossad and for the Arab Delegation Liaison a subsidiary of the British Secret Services. I later moved to the Police Secret Services as well laboratory. I was deployed in European operations in Paris, Zurich, Berlin, Düsseldorf, Maastricht, London, Rome, Madrid, Athens, Moscow, and Warsaw."

"Carl Clark: People can be tracked anywhere by radar, satellite, a base station and complementary computer devices would continuously be positioned in the vicinity of the target. The radar emits directed the target and the result is then evaluated. My friends who work in the special department (sic) computers. This form of localizing the target made it easy to deploy the (directed energy) via weapons penetrating walls accurately... "Targets could see exactly where to aim and it was not difficult to hit them."

"Amin Grose: What effects did the weapons have on the targets?"

"Carl Clark: They cause heat, inner burns, pain, nausea, fear."
